REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

1. Claims 4-15 are pending and are allowed.
2. The rejections of claims 4-15 under 35 USC 102 are dropped as the claims have been amended thereby creating a clear demarcation over the art.
3. USP 6864279 is noted. However, a terminal disclaimer has been filed and accepted thereby obviating an obviousness-type double patenting rejection.
4. The prior art neither teaches nor suggests the claimed compounds. In the absence of any evidence or apparent reason why the claimed compounds do not possess the disclosed utility, the allegation of utility in the specification must be accepted as correct. In re Kamal et al, 158 USPQ 320; Ex parte Krenzer, 199 USPQ 227.

Warfarin, depicted below, is a known anticoagulant.

The claimed compounds have the formula depicted below where X/Y is defined at page 9 of the specification.

Compounds structurally similar are expected to have similar properties. Thus the claimed compounds would be expected to have anticoagulant activity. The level of skill in the art is further reflected in In re Lohr 137 USPQ 548 at 549 (CCPA 1963), and in In re Payne 204 USPQ 249 at 254 (CCPA 1979).
